

- 
- A scatter plot showing data points categorized by environment type. The plot features several distinct clusters of points in various colors, representing different categories. A legend in the top right corner identifies the categories: SurroundingEnvironment (blue), Normal (orange), HardwareFault (green), ParamViolation (red), RegulationViolation (purple), CommunicationIssue (brown), and SoftwareFault (pink). The 'Normal' category is the most numerous, forming a large, irregular shape in the center-right. Other categories are more localized, with 'SurroundingEnvironment' on the left, 'HardwareFault' at the bottom left, 'ParamViolation' at the top left, and 'SoftwareFault' at the top center. 'RegulationViolation' and 'CommunicationIssue' are represented by single points.
- SurroundingEnvironment
 - Normal
 - HardwareFault
 - ParamViolation
 - RegulationViolation
 - CommunicationIssue
 - SoftwareFault
