

- 
- A scatter plot showing various system faults categorized by color. The plot includes a legend in the top right corner. The data points are distributed across the plot area, with a large orange cluster on the right, a green cluster at the top, and several smaller clusters of other colors (pink, blue, red, purple, brown) scattered on the left and bottom. The legend lists the following categories: SurroundingEnvironment (blue), Normal (orange), HardwareFault (green), ParamViolation (red), RegulationViolation (purple), CommunicationIssue (brown), and SoftwareFault (pink).
- SurroundingEnvironment
  - Normal
  - HardwareFault
  - ParamViolation
  - RegulationViolation
  - CommunicationIssue
  - SoftwareFault
