

- 
- A scatter plot visualizing data points categorized by fault type. The plot features several distinct clusters of points in various colors. A legend in the top right corner identifies the categories: SurroundingEnvironment (blue), Normal (orange), HardwareFault (green), ParamViolation (red), RegulationViolation (purple), CommunicationIssue (brown), and SoftwareFault (pink). The 'Normal' cluster is the largest, spanning the center and right. 'SurroundingEnvironment' is a small blue cluster at the bottom. 'HardwareFault' is a green cluster on the left. 'ParamViolation' is a red cluster in the upper left. 'SoftwareFault' is a pink cluster at the top. 'RegulationViolation' is a single purple point at the bottom. 'CommunicationIssue' is a small brown cluster in the upper left.
- SurroundingEnvironment
 - Normal
 - HardwareFault
 - ParamViolation
 - RegulationViolation
 - CommunicationIssue
 - SoftwareFault
