

- 
- A scatter plot visualizing data points categorized by fault type. The plot shows several distinct clusters of points in a 2D space. The legend on the right identifies the categories: SurroundingEnvironment (blue), Normal (orange), HardwareFault (green), ParamViolation (red), RegulationViolation (purple), CommunicationIssue (brown), and SoftwareFault (pink). The 'Normal' cluster is the largest, located in the center-right. Other clusters are more compact and separated from each other.
- SurroundingEnvironment
 - Normal
 - HardwareFault
 - ParamViolation
 - RegulationViolation
 - CommunicationIssue
 - SoftwareFault
