

- 
- A scatter plot showing the distribution of various system states. The plot is divided into several distinct clusters of points, each representing a different category. The categories are: SurroundingEnvironment (blue), Normal (orange), HardwareFault (green), ParamViolation (red), RegulationViolation (purple), CommunicationIssue (brown), and SoftwareFault (pink). The Normal cluster is the largest and most central, while the SurroundingEnvironment cluster is at the bottom. The HardwareFault cluster is at the top, and the ParamViolation cluster is on the left. The RegulationViolation cluster is at the bottom left, and the CommunicationIssue cluster is at the bottom left. The SoftwareFault cluster is on the left. The legend is located in the top right corner.
- SurroundingEnvironment
 - Normal
 - HardwareFault
 - ParamViolation
 - RegulationViolation
 - CommunicationIssue
 - SoftwareFault
