

- 
- A scatter plot showing data points categorized by fault type. The plot is enclosed in a black rectangular frame. The data points are colored according to the legend: blue for SurroundingEnvironment, orange for Normal, green for HardwareFault, red for ParamViolation, purple for RegulationViolation, brown for CommunicationIssue, and pink for SoftwareFault. The points are distributed across the plot area, with a large cluster of orange points in the center-right, a cluster of green points in the top-left, a cluster of red points in the bottom-left, and a cluster of pink points in the bottom-center. There are also several small clusters and individual points scattered throughout the plot.
- SurroundingEnvironment
 - Normal
 - HardwareFault
 - ParamViolation
 - RegulationViolation
 - CommunicationIssue
 - SoftwareFault
