

- 
- A scatter plot showing various system faults categorized into seven groups. The plot features several distinct clusters of colored dots on a white background. The legend in the top right corner identifies the categories: SurroundingEnvironment (blue), Normal (orange), HardwareFault (green), ParamViolation (red), RegulationViolation (purple), CommunicationIssue (brown), and SoftwareFault (pink). The 'Normal' cluster is the largest, located in the center-right. The 'SurroundingEnvironment' cluster is a small blue group on the left. The 'HardwareFault' cluster is a green group at the top. The 'ParamViolation' cluster is a red group in the lower-left. The 'RegulationViolation' cluster is a single purple dot. The 'CommunicationIssue' cluster is a single brown dot. The 'SoftwareFault' cluster is a pink group at the bottom. There are also some scattered dots of various colors within and around the main clusters.
- SurroundingEnvironment
  - Normal
  - HardwareFault
  - ParamViolation
  - RegulationViolation
  - CommunicationIssue
  - SoftwareFault
