

- 
- A scatter plot showing data points categorized by environment type. The plot features several distinct clusters of points in various colors. The legend on the right side of the plot identifies the categories: SurroundingEnvironment (blue), Normal (orange), HardwareFault (green), ParamViolation (red), RegulationViolation (purple), CommunicationIssue (brown), and SoftwareFault (pink). The points are distributed across the plot area, with 'Normal' being the most numerous and 'RegulationViolation' being the least. Some points are isolated, while others form dense groups.
- SurroundingEnvironment
 - Normal
 - HardwareFault
 - ParamViolation
 - RegulationViolation
 - CommunicationIssue
 - SoftwareFault
