

- 
- A scatter plot showing various clusters of data points on a 2D plane. The points are color-coded according to the legend. The 'Normal' cluster (orange) is the largest and most central. Other clusters include 'SurroundingEnvironment' (blue), 'HardwareFault' (green), 'ParamViolation' (red), 'RegulationViolation' (purple), 'CommunicationIssue' (brown), and 'SoftwareFault' (pink). The 'SoftwareFault' cluster is at the top, 'HardwareFault' is on the left, 'ParamViolation' is in the lower-left, 'CommunicationIssue' is at the bottom-left, 'RegulationViolation' is at the bottom, and 'SurroundingEnvironment' is at the bottom-right. There are also some smaller, more dispersed clusters of orange points.
- SurroundingEnvironment
 - Normal
 - HardwareFault
 - ParamViolation
 - RegulationViolation
 - CommunicationIssue
 - SoftwareFault
