

- 
- A scatter plot showing data points categorized by error type. The plot features several distinct clusters of points in various colors. A legend in the top right corner identifies the categories: SurroundingEnvironment (blue), Normal (orange), HardwareFault (green), ParamViolation (red), RegulationViolation (purple), CommunicationIssue (brown), and SoftwareFault (pink). The 'Normal' cluster is the largest and most dispersed, occupying the right and top-center areas. 'HardwareFault' points are clustered in the upper left. 'ParamViolation' points form a small cluster on the far left. 'SurroundingEnvironment' points are in the lower left. 'SoftwareFault' points are in the bottom center. 'RegulationViolation' and 'CommunicationIssue' points are scattered near the center. 'SurroundingEnvironment' points are also visible within the 'SoftwareFault' cluster.
- SurroundingEnvironment
 - Normal
 - HardwareFault
 - ParamViolation
 - RegulationViolation
 - CommunicationIssue
 - SoftwareFault
