

- 
- A scatter plot visualizing data points categorized by fault type. The plot features several distinct clusters of points in different colors. A large orange cluster is on the right, a green cluster is at the top center, a red cluster is on the left, and a blue cluster is at the bottom center. A legend in the top right corner identifies the categories: SurroundingEnvironment (blue), Normal (orange), HardwareFault (green), ParamViolation (red), RegulationViolation (purple), CommunicationIssue (brown), and SoftwareFault (pink). The points are distributed across the plot area, with some overlap between clusters.
- SurroundingEnvironment
 - Normal
 - HardwareFault
 - ParamViolation
 - RegulationViolation
 - CommunicationIssue
 - SoftwareFault
