

- 
- A scatter plot showing various system faults categorized into seven groups. The plot area is mostly white with a black border. The data points are colored according to the legend: blue for SurroundingEnvironment, orange for Normal, green for HardwareFault, red for ParamViolation, purple for RegulationViolation, brown for CommunicationIssue, and pink for SoftwareFault. The points are distributed across the plot, with a large cluster of orange points in the upper right, a cluster of green points in the upper left, and a cluster of blue points in the lower left. There are also several smaller clusters and individual points scattered throughout the plot.
- SurroundingEnvironment
 - Normal
 - HardwareFault
 - ParamViolation
 - RegulationViolation
 - CommunicationIssue
 - SoftwareFault
